MAIN GOALS

- Discover your own natural singing voice, and find out what it can do.
- Achieve a rich and pleasing vocal tone you and others can enjoy for a lifetime.
- Learn to overcome anxiety about singing in front of others.
- Increase your harmony *kung fu* with daily Barbershop tag singing.
- Learn to make the adjustments a choir director might ask you to make to blend with a choir.

DESCRIPTION

This is a super-fun, high-humored, hard-working workshop with lots of group activities and exercises, as well as lots of master-class-styled singing instruction as each participant sings for the class. Yes, that can be scary, but it's so worth it, and by day two, most have pretty much conquered the fear, and are having a blast! If you're like most, you'll make improvements in your first 5-minute solo session that you never thought you could make! And we'll get some great harmony experience learning several Barbershop tags. We'll perform those, along with your solo pieces on the Friday night recital. There's a 60-second pitch-matching test to qualify for Voice Camp. Get a new t-shirt and make new friends!

TRY BEFORE YOU BUY!

Sing Montana! Freedom Choir will be having a few one-night voice class sessions quite similar to this over our summer break, on **most*** Monday nights from 6:00 to 8:30. You can come observe (or participate, if you like) to see what it's like before you register for Voice Camp 2023! (201 East Main Street, Laurel, MT)
